April 30, 2001

Dear Sir or Madam,

Trace Robinson has worked as my landscape designer for the past three years. During that time, she has shown an extensive knowledge of plants, trees, and landscaping. She is also fully capable of directing any and all construction projects in my gardens. Living on the beach has created many challenges on my property. For example, I was told for over twenty years that I would not be able to have a flowering garden. Trace assured me that I could have a prolific flowering garden for cutting all year round.

I requested a specific theme in color and texture, which Trace accomplished with great skill. I am impressed with Trace's dependability and constant attention to detail. In this project, which has been an ongoing for three years, she has provided the plants, and supervised a maintenance team in all plantings, feeding, trimming of trees, and weekly gardening services.

Because of Trace's work, neighbors and professional photographers often stop to admire and photograph my lush garden, full of annual and perennial flowers.

We have a great working relationship and I look forward to continuing our association.

Sincerely yours,

Margaret A. Baker
